## SOLDERING REFLOW

Recommended reflow soldering standard conditions

### Note:

The crystal characteristics may be affected and destroyed at worst by additional production process as ultrasonic welding or molding encapsulation... Please be sure to check if this process affects any damage to crystal products prior to use.

## RoHS and REACH Regulation

### Product Information

For a product to be **RoHS** compliant, it must satisfy several conditions:

- Contain no more than the specified limits of the target hazardous substances set out in the RoHS Directive
- Able to withstand Pb-free 260°C solder reflow profile
- External packaging and terminations are Pb-free
- Internal PCB, components, solders, and terminations are Pb-free

### RoHS 3 Compliance

We certify that our crystal series comply with the European ROHS 3 Directive (EU) 2015/865, Restriction of use of certain Hazardous Substances, which has an effective date of July 22, 2019.

### Reach Compliance

#### **EACH Regulation (EC) 1907/2006**

Above concerned part is compliant with all requirements in the REACH regulations EC No. 1907/2006.
